ABOUT US

Verity does not just buy systems off the shelf overseas, put our logo on them, and ship them out. We work with engineers, some at our location in Mishawaka, Indiana to design camera systems to meet the safety needs of several industries.

Where some companies just fall for the latest trend and bring untested safety equipment to the market, we perform the needed testing and often help factories make a better product for which we employ the ODM (original design manufacturing) method. We employ global engineers which help us offer the latest technologies.

One step of every project we do is: “How will we defend it in court?” By doing extensive testing, we know our product is the best. We make our products Verity Safe™.

THINK SAFETY FIRST

Read our manual before operating
or installing the REC02U.

Verity products are intended to be installed as a supplement, and our observation systems and/or products are not intended to be a substitute for mirrors or other standard motor vehicle equipment which may be required by law. Verity products promote improving vehicle/driver operations. Our products are no substitute for proper driving techniques, observance of traffic laws, and motor vehicle safety regulations.

Installation Location

It is unlawful in most locals for any person to drive a motor vehicle equipped with a television viewer/screen located at any point forward of the back of the driver's seat (or in any location that is visible, directly or indirectly-to the driver) while operating the vehicle. Our systems are designed to be used primarily as a rear observation device.

DO NOT OPEN ANY COMPONENT. There are no serviceable parts inside any Verity product. Opening the product will break the tamper indicators and void the warranty. If a problem should arise, please contact our technical support 574-807-6004. For faster response, fill out a service ticket found on our website. www.veritysafe.com

WARNING

- ◆ Do not pull cables tightly and add tension to them. A drip loop is required where applicable.
- ◆ Do not place cables where they can be crushed in any manner.

CAUTION

- ◆ To avoid damage to the electronic circuit, stop using this product while doing welding work to the vehicle and/or trailers.
- ◆ When cleaning monitors and cameras, use a damp lint-free cloth only.
- ◆ Connect this unit only to other compatible Verity components.
- ◆ Although our products have built-in surge and cross polarity protection, make sure all cables are connected properly. Improper cable connections may damage the camera and the monitor.
- ◆ Cables should not be allowed to touch hot or rotating parts, such as the engine or exhaust.
- ◆ Do not locate the monitor near heat-generating vents or devices.
- ◆ Turn off power to the monitor when connecting the camera.

Monitors are not designed to be waterproof. (Our SM07F waterproof monitor is the exception). Exposure to water, such as rain, may damage the unit.

SYSTEM FEATURES

Features:

H.265/H.264 image compression encoding

4 channels of D1/960H/AHD 720P simultaneous audio and video recording/replaying

4- channel of 960H + 1- channel IPC 1080P HD camera full-framed recording

Air video interface is used to provide high reliability and strong anti-seismic property

Records 8 seconds after power failure

Two SD cards supported 256 GB for each. 2 x 256GB = 512GB storage

Unique inputs: 1 RS485 interface, 2 RS232 interfaces

8V-36V wide voltage DC supply

High/low-temperature resistance, operating under -25°C / +75°C

System

Language: English / Chinese

Operation Interface: Graphical User Interface (OSD menu)

Two-Level Password Security: Administrator & User

Video

Video-Input: Supports 4 channels CIF/HD1/D1/960H/720P camera video input

Supports 2-CH 720P AHD + 2-CH 960H analog mixing

Video input

Supports 1-CH 720P/1080P IPC + 4-CH 960H/D1/CIF Video input

Note: 4 channels 720P AHD or 1-CH 720P/1080P IPC + 4-CH 960H Video input will require high speed SD card (> 80Mb/S, Class 10 or higher)

Video Output 2 Channels: front panel 3.5mm Jack, 4-pin rear panel on 24 pin I/O Port.

Video Display: Single picture, 1~5 pictures

Signal System: PAL / NTSC - PAL@100 frame 720P/sec; NTSC@120 frame 720P/sec

Audio

Audio Input: 4 Channels

Audio Output: 2 Channels - Front Panel 3.5mm Jack, Rear Panel on 24pin I/O Port

Recording & Storage

Image Resolution: CIF / HD1 / D1 / 960H / 720P

Video Coding: ISO14496-10 Industry Standard

Video Bit Rate: CIF (Common Intermediate Format):

1536Kbps ~ 128Kbps

HD1/D1: 2048Kbps ~ 400Kbps

960H: 2048Kbps ~ 400Kbps

720P: 4096Kbps ~ 400Kbps

Select from 8 Levels of video image quality ranging from 1(Highest) to 8 (Lowest)

Audio Bit Rate: 40Kbps

Storage: 2 SD Card Slots, Up to 256GB each, Class 10 or higher SD card required

Alarm

Alarm Input: 8 Channels, select trigger for either less than 1VDC or greater than 5VDC

Alarm Output: 1 Channel, 12V output

Communication Ports

RS485: 1 Port for PTZ controller or data device usage

RS232: 2 Ports for communication or data usage

RJ45 Network: 1 Port of RJ45, for connection to an IP camera with a maximum of 1080P

Software

PC Playback A/V, files available for playback on PC. Limited playback is also available on MDVR

Software Upgrade: via SD card

Power

Voltage Input: +8V~+36V 8~36, DC

Voltage Output: 12V (+/-0.2V) , Max 3A

Video Output Voltage: 2VP-P CVBS output analog signal

Dimensions

170 x 142 x 50mm including security cover 170x187x50mm

SYSTEM OVERVIEW

SIM A slot does not apply to the REC02U

Metal Connector Tamper-resistant Cover

Security cover helps prevent tampering or damage to the cable connection on the back of the MDVR.

MANUAL

REMOTE OVERVIEW

LOGIN: When the recorder is set with a password, press the Login key to input your Password.

KEY POINT: Because of security reasons, the DVR does not provide password recovery and reset features. Always keep a copy of your password written down.

INFO: Check information

Quad 4 Image Format: Number keys 1, 2, 3, 4 on the monitoring interface, are used to switch between quad view and single view; press the Quad View key to display 4 screens. You can press number 1/2/3/4 to display channel 1, channel 2, channel 3 and channel 4, respectively.

RETURN: Return to the previous menu, and finally exit from the setup menu to the monitoring interface.

PAUSE/STEP: Used to pause playing or play images at a single step. Press the key again to recover normal play speed.

FRAME: Press this key to play a video in a frame rate.

PLAY: Press this key to start playing (search the video file to be played and select, then press the key to play it.)

FWD Forward key in four grades: 2X,4X,8X,16X

REW Rewind key in four grades: 2X,4X,8X,16X

NEXT: Page down or roll to the next file

PREV: Page up or roll to the previous file

PTZ: Auto, preset, call, zoom +, zoom -, focus +, focus -, aperture +, aperture -, PTZ, PRESET, RECALL,

BRUSH: F1, F2, F3, F1 is a key to start functional test

Important: Make sure the remote is facing the front of the DVR during remote operations.

If you install the DVR behind a wall or in a cabinet, the IR remote will not work.

For these applications, our IR extender will allow you to place the DVR hidden behind a wall and use our ADD02CP. This IR/LED panel has a 16 foot extended cable. This panel provides feedback on the operation of the DVR. Never miss another recording due to issues that may occur over the years.

- PWR:** Power on light.
- REC:** Record light recording.
- HDD:** For hard drive units flashes when recording.
- ALM:** Indicates an "Alarm" event.
- V-LOSS:** Video loss light: flashes when video loss.
- ERR:** Error light
- IR:** IR receiver

The instructions for the ADD02CP will ship with the item.

USER LOGIN

Click the login button on the remote; the login interface will appear. Please input your User Name, Password, and the menu will show up.

The default UserName is **admin**, with a default password of **888888**.

If you have not set these values, you can use the right arrow button to pass through these.

To change the Password

To change the Password, In the Master menu, Click BASIC

PASSWORD SETUP

Then Click USER in the **Basic Setup** Screen

ALL INVERSE EXPORT

WARRANTY

LIMITED ONE (1) YEAR WARRANTY

1. CSS products' warranties are not transferable. The warranties apply to the retail consumer for one (1) year and covers against defects in material and workmanship on Verity systems. We do not warranty our cables which are QC tested at three different stations before shipping. All components must be installed in compliance with all Federal, State, and Local government requirements. Warranty is limited to the United States of America and Canada.
2. Defective components will be replaced or repaired, based on a CSS evaluation of the component. In-bound shipping charges, based on the CSS rate allocated in the RMA (returned merchandise agreement), will be covered once the component has been deemed defective at the CSS warranty facility. The pre-assigned in-bound freight will be supplied upon return of product. All repaired/replaced warranty parts shall be for the remaining duration of the original warranty time period.
3. CSS takes pride in our products and will aid in the processing of your components:
 - a) All warranty claimants must have consulted our technical support department for trouble shooting and the acquiring of an RMA. Contact can be made via email at tech@verityrvs.com or call 574-807-6002.
 - b) When the warranty claim is made, the consumer must establish the warranty start dates by presenting documentation regarding the date of retail purchase (e.g., bill of sale).
 - c) Service performed by non-authorized service personnel may void all warranty claims.
 - d) CSS will make no payments for system removal / system re-installing, mileage allowance, or transportation expenses.

The limited warranty does not cover damage resulting from misuse, accident, modification or alteration to hardware or software, tampering, unsuitable physical or operating environment beyond product specifications, improper maintenance, or failure caused by a product for which CSS is not responsible. There is no warranty for any product with removed or altered identification labels. CSS DOES NOT PROVIDE ANY OTHER WARRANTIES OF ANY KIND, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF IMPLIED WARRANTIES, SO THIS LIMITATION MAY NOT APPLY TO YOU.

4. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

Technical Support

A service ticket can be filled out online to supply the quickest service. The service ticket can be easily found on our web site: www.verityrvs.com or use the code to the right. Please have the serial number, which is found on the top of the DVR, when contacting the service department. We take great pride in delivering the most dependable product in the industry. Each item was 100% QC tested and then we randomly recheck another up to 10% before it leaves our hands to you. We have a .034% issue rate with this product.

Email Tech Support:

Tech@verityrvs.com

Phone Tech Support: 574-807-6004

Note: if you are an OEM, Fleet fire/rescue customer in need of tech support after hours or on weekends, leave a message, and a technician will return your call as soon as one becomes available.
